## Academic Projects

### ➤ Project : University Management System

#### ➤ Project Description :

- Implemented features for student and faculty and management
- Secure login system with role based access for students,faculty and administrators
- Functionality to add update delete ,and view student information and Faculty
- student and staffs records, including enrollment, student academic performance, attendance , and personal details

### ➤ Project : User Authentication App

- The User Authentication Application is a secure platform that enables user registration and login functionalities,
- built using Spring Boot and MySQL. It includes features such as user validation during signup, Login, password, and session management for enhanced security.
- The application implements role-based access control to manage user permissions effectively.
- I utilized Spring Data JPA for seamless interactions with the MySQL database to ensure reliability.
- Future enhancements will include social media login options and two-factor authentication for added security.
- This project not only showcases my technical skills but also reflects my commitment to developing secure and efficient applications.

### ➤ Project: Student Management System

- Developed a Student Management System using Spring Boot, Java, Thymeleaf, and MySQL.
- This web application facilitates the management of student records through features such as registration, search, update, and delete operations.
- I was responsible for designing and implementing the backend services, developing a user-friendly interface, and integrating RESTful APIs to ensure efficient data handling.
- This project not only showcases my technical skills but also reflects my commitment to developing secure and efficient applications.

## Internship

### KodNest Dream Factory:

- Completed an internship in Java Full Stack Development at KodNest which comprehensive learning and practical experience enriching my skills in Web application Development and java technologies
- BENGALURU

## Technical Skills

- CORE JAVA
- MySQL
- Springboot
- Html

### Keyskill:

Team work, Hard-worker, 24x7available, quick learner, passionate about work

## Personal Qualities :

- Exceptional presentation skills.
- Exceptional Communication skills in written and verbal both.
- Able to give the best result in pressure situation
- My hobbies are playing cricket, Travelling

## Declaration :

I hereby declare that the above mentioned particulars are true to the best of my knowledge and belief.
